MAGELLAN MEETING 2008 MACAU

Welcoming Message

Dear Magellans,

Welcome to Macau!! This is the first Magellan meeting to be staged in Asia!!

We have a stimulating scientific program which will up-keep the tradition of the Magellan meetings, in bringing both novelty and vitality to the group.

Thanks a lot for the hard work of the program chair, Freddie FU and John Bartlett.

We have also reserved sufficient time for sports, social and cultural activities for all of you to explore this "Las Vegas of the East"

Above all, we have ample time to catch up with all our friends...!!

As some of you are going to Hong Kong for the 5th World Congress of Sports Trauma, may I take this opportunity to thank all of you for your expert contribution to the program, as this is going to be the best ever World Congress in the Olympic Year!!

There will be endless fascination in the vibrant city of Hong Kong.

With my best personal regards,

A handwritten signature in cursive script, appearing to read 'KM Chan'.

KM Chan

President
Magellan 2008

Organizing Committee

Program Chairs: Prof Freddie Fu, Dr John Bartlett

Executive Secretary: Ms Cheri Baumann

General Secretary: Dr Dean Taylor

Local coordinator: Dr Raphael WN Lo

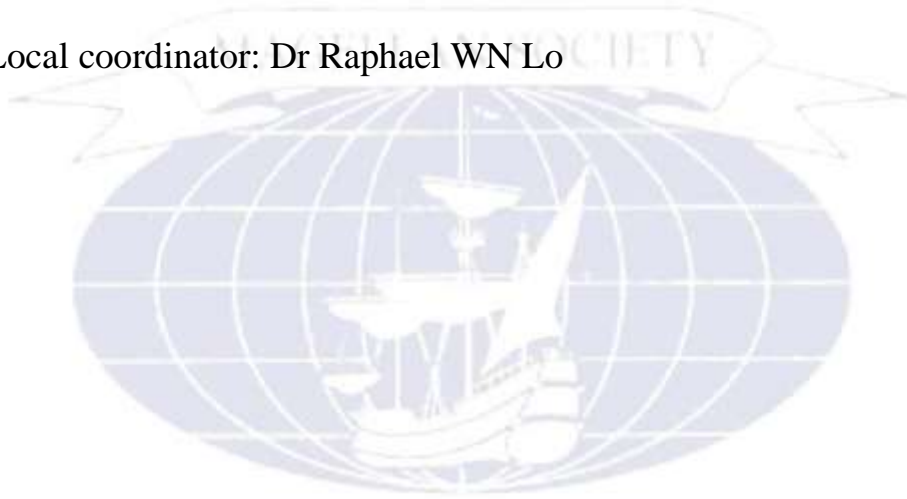

Table of Content

Page	Content	Author
4-5	Itinerary and Program	
6	Role of Prevention and Epidemiology of Shoulder Pathologies in Elite Swimmer	Camillieri
7	A Review of Diagnostic Information from Patients Referred for Specialist Review for Shoulder Pain and the Effect of Academic Detailing on the Rate of Referral for Imaging of Shoulder Pathology in General Practice	Martin
8	Evaluation of Scapular Position in Overhead Athletes	Milano
9	Rotator Cuff Muscle Behavior at the Empty Can and Full Can position	Takeda
10	Comparative Anatomy of the ACL	Fu
11	Femoral Insertions of the Bundles of the ACL. Morphometry, arthroscopic landmarks and orientation models for bone tunnel placement	Siebold
12	Anatomical study of the ACL Tibial Insertion	Bartlett
13	Knee Rotational Stability of Anterior Cruciate Ligament Deficient Knee in Pivoting Task- a Kinematics Pilot Study	Yung
14-15	A Three-sensor Pressure Insole System for Monitoring Ankle Supination Torque during Sport Motion	Chan
16	Vertical or Oblique Incision for Hamstring Tendon Harvest: A Prospective and Randomized Study	Eriksson
17	Continental Variations in Pre-operative and Post-operative Management of Patients with Anterior Cruciate Ligament Injuries	Moorman
18	Comparison of Single Bio-Transfix Femoral Fixation for Double and Single Bundle Hamstring ACL Reconstruction	DeBerardino
19	Femoral and Tibial Tunnel Position and Orientation in ACL Reconstruction: A Vote for Independence	Taylor
20	A Time and Cost Comparison of Autografts and Allografts Used in ACL Reconstruction	Bottoni
21-22	Computer Assisted Reconstruction of the ACL Deficient Cadaveric Knee: Comparison of Single vs Double Tunnel vs Extra-Articular Techniques	Albright
23-24	One Bundle BPTB Vs Two Bundle Hamstrings PCL Reconstruction: A Prospective Isokinetic and Clinical Assessment After One Year	Denti
25	PCL arthroscopic femoral inlay reconstruction. Surgical technique and early results.	Margheritini
26	Early Full Weight Bearing is Safe in Open Wedge HTO - RSA Study in Patients After Open Wedge HTO with TomoFix	van Heerwaarden
27	Imaging Findings After Meniscal Repair with Degradable Polyurethane Scaffold	Verdonk
28	The Effect of Platelet Rich Plasma on the Restoration of Articular Cartilage: An Experimental Study	Milano
29	EMR Improves Job Satisfaction and Office efficiency	Brand
30	Biomechanical evaluation of six femur-graft-tibia complex in ACL reconstruction with DGST-Is the tibial fixation still the weakest point?	Camillieri
31	Postoperative Range of Motion Following ACL Reconstruction using Autograft Hamstrings: A Prospective, Randomized Clinical Trial of Early vs Delayed Reconstruction	Bottoni
32	Acknowledgement	

Itinerary and Program

Day of Arrival [7 April, 2008]	
Transports to Macau from home town by flight or from Hong Kong by ferry [Check-in at Westin Resort, Macau: 1500]	
Magellan Meeting Day 1 [8 April, 2008]	
0900-1300	Magellan Meeting
	0915-0930 Opening Speech
	0930-0945 (Camillieri) Role of prevention and epidemiology of shoulder pathologies in elite swimmer
	0945-1000 (Martin) A Review of Diagnostic Information from Patients Referred for Specialist Review for Shoulder Pain and the Effect of Academic Detailing on the Rate of Referral for Imaging of Shoulder Pathology in General Practice
	1000-1015 (Milano) Evaluation of Scapular Position in Overhead Athletes
	1015-1030 (Takeda) Rotator Cuff Muscle Behavior at the Empty Can and Full Can position
	1030-1100 Morning Coffee Break
	1100-1115 (Fu) Comparative Anatomy of the ACL
	1115-1130 (Siebold) Femoral Insertions of the Bundles of the ACL. Morphometry, arthroscopic landmarks and orientation models for bone tunnel placement
	1130-1145 (Bartlett) Anatomical study of the ACL Tibial Insertion
	1145-1200 (Yung) Knee Rotational Stability Of Anterior Cruciate Ligament Deficient Knee In Pivoting Task - A Kinematics Pilot Study
	1200-1215 (Chan) A Three-Sensor Pressure Insole System For Monitoring Ankle Supination Torque During Sport Motion
	1215-1300 Business Meeting
	1300-1400 Lunch at Westin Resort (Chinese lunch at Kwun Hoi Heen, Westin Resort)
1400-1900 Social Program	
1900-2100 Magellan Welcome Dinner (Outdoor BBQ at Café Terrace, Westin Resort)	

Magellan Meeting Day 2 [9 April, 2008]	
0900-1300	Magellan Meeting
0900-0915	(Eriksson) Vertical or Oblique Incision for Hamstring Tendon Harvest: A Prospective and Randomized Study
0915-0930	(Moorman) Continental Variations in Pre-operative and Post-operative Management of Patients with Anterior Cruciate Ligament Injuries
0930-0945	(DeBerardino) Comparison of Single Bio-Transfix Femoral Fixation for Double and Single Bundle Hamstring ACL Reconstruction
0945-1000	(Taylor) Femoral and Tibial Tunnel Position and Orientation in ACL Reconstruction: A Vote for Independence
1000-1015	(Bottoni) A Time and Cost Comparison of Autografts and Allografts Used in ACL Reconstruction
1015-1030	(Albright) Computer Assisted Reconstruction of the ACL Deficient Cadaveric Knee: Comparison of Single vs Double Tunnel vs Extra-Articular Techniques
1030-1100	Morning Coffee Break
1100-1115	(Denti) ONE BUNDLE BPTB VS TWO BUNDLE HAMSTRINGS PCL RECONSTRUCTION: A PROSPECTIVE ISOKINETIC AND CLINICAL ASSESSMENT AFTER ONE YEAR
1115-1130	(Margheritini) PCL arthroscopic femoral inlay reconstruction. Surgical technique and early results.
1130-1145	(van Heerwaarden) Early full weight bearing is safe in Open wedge HTO - RSA study in patients after open wedge HTO with TomoFix
1145-1200	(Verdonk) Imaging Findings after meniscal repair with degradable polyurethane scaffold
1200-1215	(Milano) The Effect of Platelet Rich Plasma on the Restoration of Articular Cartilage, An Experimental Study
1215-1300	Business Meeting
1300-1400	Lunch at Westin Resort (Western buffet lunch at Café Panorama, Westin Resort)
1400-evening	Social Program
Day of Departure [10 April, 2008]	
0900-1300	Magellan Meeting
0900-0930	Business Meeting
0930-0945	(Brand) Are Electronic Medical Record Systems Paperless?
0945-1000	(Camillieri) Biomechanical evaluation of six femur-graft-tibia complex in ACL reconstruction with DGST-Is the tibial fixation still the weakest point?
1000-1015	(Bottoni) Postoperative Range of Motion Following ACL Reconstruction using Autograft Hamstrings: A Prospective, Randomized Clinical Trial of Early vs Delayed Reconstruction
1015-1030	(Georgoulis) Herodicus - the father of Sports Medicine
1030-1100	Morning Coffee Break
1200-1300	Lunch at Westin Resort (Western buffet lunch at Café Panorama, Westin Resort)
Evening	Transport from Macau to home town by flight or to Hong Kong by ferry

[Check-out at Westin Resort, Macau: 1100]
